2. Reason for termination:		
<p>Please be informed that some versions of our portfolio of sensor actuator boxes will be terminated due to the redesign (PCN/19/010/C+N).</p> <p>In general just the number of ports of some sensor actuator boxes will be phased out. The same box is available with less or more ports. So, the customer can easily switch to the same variant but with another number of ports.</p>
