Subject: Updates / Removal of Pre-tinned PCB Connectors

Amphenol SV Microwave is removing some pre-tinned items from our List that have limited sales history. While we will continue to accept orders for items with previous sales history, we will be sending recommended alternate part numbers in the coming months. Please see below list.

Additionally, we are removing part number M39030/5-04N while we work on supply chain issues with a key component. All other pricing remains the same.

We will continue to strive to supply you with the best products and push limits on our capabilities, but will also continue to make changes where needed.

Part Numbers
