

190913639 Data Sheet Revision for EFR32BG21 and EFR32MG21 to Revision 1.1

Bulletin Issue Date: 9/13/2019

Effective Date: 9/13/2019

Description of Change

Silicon Labs is pleased to announce the release of EFR32BG21 and EFR32MG21 data sheets. The data sheets have been updated to version 1.1 to reflect additional security features enabled by the EFR32xG21 Secure Element firmware release v1.1.2 and to correct minor typos in the document. See the Revision History of the data sheet for a complete list of changes.

Reason for Change

Additional security features have been enabled on the EFR32BG21 and EFR32MG21 ICs by Silicon Labs EFR32xG21 Secure Element firmware release v1.1.2. EFR32xG21 devices must be updated to SE firmware version v1.1.2 or later to enable the new security features including:

- Secure Boot with Root of Trust and Secure Loader (RTSL)
- DPA counter measures.

The firmware update can be done during the product manufacturing process or via an over the air update for products in the field. For more information on upgrading the SE firmware, see UG266.
